

# LETHAM PARK SHELTER

## Clay Building Workshops

It has been nearly 3 years since we started our project to improve the facilities in **Letham Park** and create a **beautiful shelter** for the community to enjoy.

We have designed a stunning **earth structure** to be built by local specialists Little and Davie who will be giving the community the opportunity to get their hands dirty and take part in a number of **workshops**.

Events and workshops are detailed below:

**WEEK COMMENCING 2 MAY**

### Children's Workshops

We will be running workshops for the youngest members of our community, Letham Primary School, The Secret Garden Outdoor Nursery and The Toddler Groups.

**WEDNESDAY, 11 MAY**

### Clay Building Presentation, 7.30pm, Letham Village Hall

Becky Little will be talking about the process of building a clay structure and answering any questions people may have. Tea, coffee and biscuits will be available for your refreshment.

**SATURDAY, 14 MAY**

### Community Workshop Day

Drop in any time between 1pm and 4pm to get some hands on experience.

We will be holding clay building workshops throughout the rest of May on Mondays and Wednesdays for community groups and interested professionals.

Anyone can help as a volunteer on Tuesdays and Thursdays.

**For more information about any of these get in touch with Becky, email: [parkshelter@letham.org.uk](mailto:parkshelter@letham.org.uk) or call: 07968494063**

The Letham Park project is a partnership project.
